Are you interested in looking for an apartment in the collective house Elsa Beskows gata 9 to 23, Fruängen?

Nice!

Our collective housing area includes seven houses with apartments from one to four rooms and a kitchen. All houses have a common room on the ground floor. The houses were built in 1984/85. The residents were involved in planning the common areas in the house. The common denominator was - and is - a desire for collective activities and good social contact between neighbours.

It is important that you who move into Elsa Beskow street are aware that you are making an *active choice*. If you are looking forward to getting involved in - and to spend time - caring for our common living environment and actively participating in various common activities in the area, you are very welcome to move into Elsa Beskow gata!

If, on the other hand, you are doubtful about this or feel that it will be a burden on you, it is better that you look for another housing.

You who move into Elsa Beskows gata must become a member of the collective housing association and participate in the association's work and activities.

As a member of the collective housing association, you undertake to:

- Actively participate and take part in the activities that the collective housing association has established as joint commitments, for example being part of a food team as well as cleaning and maintaining common areas in the house and on the farm.
- Participate in the meetings of the collective housing association and the house.
- Participate in various responsibility groups with, among other things, supervisory duties in the area and in common areas
- Pay the annual fee for membership in the collective housing association, which is decided at the annual meeting (currently SEK 50 per year and adult in the household).

In connection with the exhibition of the current apartment, someone from the collective housing association will meet you for an interview and talk through what it means to move to collective housing on Elsa Beskows gata. The interview takes about 30 minutes. You must also write a small letter motivating why you want to live here.

Well met! Collective housing association Elsa Beskow
